Femmesil is also the only vaginal care product in the world containing TST or TetraSILVER, six patents have been awarded for its unique benefits.

TST is a multivalent silver oxide; the most powerful antimicrobial form of silver in the world estimated to be up to 240 times more powerful than regular silver, including colloidal silver.

The inclusion of TST in Femmesil provides a highly effective antimicrobial germicidal action to protect your vagina, an unbeatable formula to promote natural healing.
